*It's my great pleasure to recommend (名前) for the Start Up Entrepreneur Programmes. As the Senior Coordinator of Ministry of Foreign Affairs of Japan, I've been extremely impressed with his achievements and skills as a CEO of (日本の会社名) his commitment to his business, and his creativity in Japanese business fields. I have no doubt he will bring the same enthusiasm and dedication to his new business in Ireland.*

*Along with his enthusiasm, positive energy, and attentiveness to markets, (名前) has a special talent of creating innovative products and services. He led his company last year into the global market, developing new AgriTech services that expect to achieve strong growth around the world.*

*As a consortium member of the (日本の大学内研究所の名称) University, (名前) contributes to the challenge of resolving food and environmental issues by advancing technological developments. He's also taken the time to teach children on how to incorporate technology as an effective micro farming technique.*

*Finally, (名前) has a unique ability to connect with business partners/employees and sensitively help them achieve their objectives. At the middle of last year, in the middle of the serious COVID-19 pandemic, I heard several stories from my acquaintances about the positive impact he made on their business environments. This positive impact was obvious as a result of the technical guidance he provided the year previously.*

*While his business partners and I would love to keep (名前) in Japan forever, we have to bid farewell so that he can achieve his greater ambition. Although I will miss having him as part of my close friends, I'm 100% confident he'll achieve an incredible triumph in Ireland.*

*Please don't hesitate to contact me for any further information by email at (メールアドレス) .*

*Sincerely,*
